Objective

Aspiring Software Development Engineer from the 2027 B.E. batch with a strong grasp of core computer science principles, data structures, and algorithms. Proficient in Java and C, with a solid foundation in programming and problem-solving. Passionate about developing efficient software solutions, writing clean and maintainable code, and continuously learning new technologies. Thrive in collaborative, fast-paced environments with a strong commitment to innovation, continuous improvement, and real-world impact through technology.

Technologies

Programming Languages & Scripting: Java, C, Python(Basics)

Databases & Storage Systems: MySQL, MongoDB

Web Technologies: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS

Development Tools & Frameworks: Node.js, Express.js, REST API, Git, Maven, Gradle

DevOps & Infrastructure: Jenkins

Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOPS), Operating Systems, Computer Networks, Database Management Systems (DBMS), Software Engineering Principles

Projects, Internships & Hackathons

First Salary Blindspot [🔗](#)

- Developed a web-based financial planning platform that helps first-time earners understand salary breakdowns, deductions, budgeting, and personalized guidance through an AI-powered chatbot.
- **Tools Used:** HTML, CSS, JavaScript, Node.js, MongoDB, Gemini API, Nodemailer

Medicine Tracking System (Blockchain) [🔗](#) (Team Project)

- Developed a blockchain-based medicine tracking system to enable secure, transparent, and tamper-proof tracking of medicines across the pharmaceutical supply chain, allowing stakeholders to verify medicine authenticity and track status updates in real time.
- **Tools Used:** React.js, Node.js, JavaScript, Ethereum, MetaMask, Ganache, Remix IDE

Campus Placement Management Portal [🔗](#)

- Developed a full-stack placement management system enabling student registration, authentication, company job postings, application tracking, and recruiter-driven hiring workflows.
- Implemented secure JWT-based authentication, REST APIs, MongoDB integration, and role-based access control using the MERN stack.
- **Tools Used:** React.js, Node.js, Express.js, MongoDB, Mongoose, JWT, Postman, Git, GitHub

AI-Driven Misinformation Analysis System (Ongoing)

- Developing an AI-based system to detect misinformation and analyze information propagation across social networks using NLP and Machine Learning techniques.
- Implementing propagation tracking, influencer detection, and spread prediction using graph analytics and predictive models.
- Building a full-stack solution with FastAPI, React.js, MongoDB, Neo4j, and OCR support for text and image-based content analysis
- **Tools Used:** Python, FastAPI, React.js, MongoDB, Neo4j, Scikit-learn, NLP, OCR, Machine Learning, Git, GitHub.

AI-Powered Image Forgery Detection System (Team Project)

- Developed a machine learning-based system to detect tampered images using Error Level Analysis (ELA) and statistical feature extraction techniques.
- Built an interactive Streamlit web application for image upload, ELA visualization, forgery prediction, and confidence scoring.
- Trained a Random Forest Classifier on authentic and manipulated images to automate image authenticity verification.
- **Tools Used:** Python, Streamlit, Scikit-learn, NumPy, Pillow (PIL), Joblib, Git, GitHub

Internships

- Prodigy InfoTech — Software Testing Intern
- Performed manual testing, test case execution, and defect tracking to ensure software quality, functionality, and reliability across different application modules.

Hackathon and Activities

- Participated in the HackBuzz 24-Hour Inter-College Hackathon, gaining hands-on experience in problem-solving, teamwork, and rapid prototyping.
- Contributed to the development and presentation of a project solution within a competitive inter-college environment.

Education

SIR M VISVESVARAYA INSTITUTE OF TECHNOLOGY, Bengaluru *B.E in Computer Science*

Engineering

Oct 2023 – Present

- CGPA: 8.91/10.0

Sri Venkataramana PU College, Kundapura *PUC*

Jun 2021 – May 2023

- Percentage: 96.16 (577/600)

Sri Venkataramana English Medium School, Kundapura *SSLC*

Jun 2020 – May 2021

- Percentage: 93.6 (585/625)

Declaration

I hereby declare that the information provided above is true and correct to the best of my knowledge.
